

# Pom-Pom Puffer

1. Decorate a paper circle with markers or crayons.  
(No need to decorate the gray part)
2. Cut out the paper circle
3. Cut solid line (NOT dotted line)
4. Ask a grown-up to cut the tiny circle with the small scissors—be as precise as you can!
5. Roll circle into a cone, lining up the cut edge with the dotted line. Tape it into a cone.
6. Tape it onto the short end of the straw. It's very important that only a tiny bit of straw pokes up into the cone.
7. Put pompom in cone and blow.
