

# Make a Peekaboo Monster

1. Choose a monster. Color it. Cut it out, along the gray lines.
2. Tape your monster on one end of the skewer.
3. Cut the tip off your snowcone cup, then decorate the cup.
4. Insert the skewer into the hole at the bottom of the cup.
5. Push the skewer up so the monster is poking up out of the cup, then wrap some tape around the skewer. That helps prevent the cup from slipping off the skewer.
6. Push the monster up or pull it down to play peekaboo!
