How do you compare to a bat or an owl?

	Me	Canyon Bat	Barn Owl
Number of Feet		2	2
Number of Fingers		4 fingers, 1 thumb	2 fingers, 1 thumb
Number of Wings		2	2
Wingspan		8 inches	45 inches
Height / Body Length		3 inches	20 inches
Weight		3—6 grams (less than an ounce)	1 pound
Average Lifespan		6—10 years	4 years
Wing Beats per Minute		700	250

A bat eats half its body weight in insects every night. How many hamburgers would you have to eat in one night to equal that?

Hint: (A large hamburger weighs a half pound, so you'd need one of those for every pound you weigh.)

A bat can eat 15 insects in one minute. If he eats for 90 minutes in the morning and 90 minutes at night, how many bugs does he eat in one day?
